

# LECTURE PLAN

COURSE CODE:

DATE: \_\_\_ / \_\_\_ /20\_\_\_

**TITLE OF LECTURE:**

**PURPOSE:**

- What do you want students to learn by the end of the lecture?
- What big idea will they have that will stick with them several years after?

**LEARNING OUTCOMES:**

- What will your students be able to do at the end of the lesson? (Think 'S.M.A.R.T': Specific, Measurable, Attainable, Relevant and Time-Bound)

**BRIDGE-IN:**

- How will you get your students excited about the content?
- How will you access prior knowledge?

**INPUT FROM YOU:**

- Make sure the content you are presenting is aligned with your learning objectives
- What examples/case studies will you use to show your learning objectives in action?
- How can you involve students in your instruction?
- Avoid introducing new and important ideas if they are not part of your learning objectives

**TEACHING/LEARNING ACTIVITIES:**

Application of knowledge. Use this space to list any classroom activities for students, and/or problems they should solve.

**CLOSURE:**

Wrap it up! In what ways will you allow for students to reflect on what they learned?

**ASSESSMENT:**

- How will you determine if the students have met their learning objectives?
- What criteria or standards will be used to assess student work?
- Are you including opportunities for self-assessment?

**MATERIALS:**

- What materials are required to complete the lesson?
